

Offered at ACES
A WORLD WIDE INNOVATIVE LEARNING
PROGRAM FOR ENHANCEMENT OF THINKING ABILITIES
AND LIFE SKILLS THROUGH GAMES

Mind Lab is an innovative and research proven program that helps children ages 4-16 enhance their cognitive, social and emotional skills using well-selected thinking games. These games encourage deduction and induction procedures, communication and the art of graceful winning and losing. During the curriculum the concepts are applied to real life situations, allowing children to make transference from game scenarios to real life experiences and scholastic achievements.

The extensive research conducted by Yale University endorses that the Mind Lab Method significantly improves math and verbal scores as well as other important thinking and life skills.

We are offering two parallel courses this fall:

K- 3rd Grade – Tuesdays 3:00 pm - 4:00 pm
