

August 25, 2009

Dear Parents and Guardians,

Please know that while the “A1A Transportation” yellow school buses are affiliated with ACES, **all** other methods of transportation are not. ACES administration does not have jurisdiction over these private transportation services, and thus do not play any role in ensuring their safety, the maintenance of their vehicles; including insurance or registration, and the amount of students they allow to board their vehicles.

Student safety is our first priority and we want to take this opportunity to remind parents of the need to inquire about each company’s credentials before making a decision related to transportation.

Thank you,

ACES Administration
