

ACES Annual Science Fair January 2009

ACES 2nd annual 7th Grade Science Fair took place the week of January 12, 2009. The Science Fair Family Night took place on January 14, 2009. Projects were displayed for students and families. The turnout for the event was fabulous. Each 7th grade student, under the direction of 7th grade science teacher Lindsey Cohen, was part of an individual or group project. Each project required students to apply the scientific method to a topic of their choice. The variety and creativity displayed by ACES Students was extraordinary. Students presented their science fair projects with enthusiasm and demonstrated in-depth knowledge of their topics.

The Miami-Dade County Science Fair

ACES students were AMAZING at the Miami Dade Science Fair! They were poised, professional, and expertly explained their projects to the judges. There were over 170 projects at the fair, and 15 were selected as Superior/ 1st place. The projects by Dennise, Jacquelyn, and Jonathan were awarded Honorable Mentions. Four of ACES projects were selected as Superior/ 1st Place! The 1st place winners were Jonas, Abril, Jake, Hermann, Joshua, and Weizenauer. These projects will be judged again, and the winners of the next round of judging will compete in the State Fair. It is truly extraordinary that 4 of the 15 winners were from our school!

Selected to Compete in the State Science Fair

Abril was selected to go to the State Fair! This is the first time an ACES student has been selected for the State Fair!
