

## JANUARY: CAREER DAY POSITIVELY IMPACTS STUDENTS AND ADULTS

Students and speakers alike took great pleasure in experiencing Aventura City of Excellence School's, (ACES) sixth annual Career Day. ACES parents, Aventura Marketing Council members, Junior Achievement guests, and the business community spoke throughout the day. Students were inspired to learn about a variety of career options such as; banking, law, medicine, party planning, non-profit work, cake making, TV Hosting, healthcare services, technology, marketing, financial services and much more. Speakers enjoyed a special breakfast to start their day and had an opportunity to meet other community members. When visiting their classes, presenters were surprised to discover that ACES students chose to dress in a wide assortment of their own career choices such as; zoo keepers, chefs, teachers, pro-athletes, artists, the president, businessmen, doctors, dancers, movie stars and more. Guests were impressed at the thoughtful questions that students asked and at how enthusiastic they were to learn why business leaders chose their professions. The day had a positive impact on the adults that shared their career experiences and the students that experienced their presentations.
