ACES Students Demonstrate Competitive Edge in Competition

ACES students Jonas Shomorony, Arie Harinton, Dennise Boncea and Miguel Gonzalez participated in the highly competitive “Math Counts” Middle School Competition held on February 27th at the Kendall Community College. Several schools put in countless hours practicing for the event and quite a few even hired professional coaches to gain a competitive edge. ACES math leaders did very well in their first contest with an impressive ranking of 7 out of 34 participating schools. All four ACES students placed in the top 25% for their individual scores. ACES would like to congratulate these students for their dedication, talent and highly regarded achievements.
