ECOLOGY MUSICAL PERFORMANCE TEACHES STUDENTS ABOUT WATER PRESERVATION

ACES 4th grade students attended an In-School Ecology Field Trip featuring the theatrical performance of “Sing Me the River” with song weaver Amy Carol Webb. The multi-media performance celebrates rivers that have always been a unique resource of Florida's waters, the people who have built their lives and made their living by them, their history, culture and art. The ecology show emphasized conservation and protection of Florida’s rivers and waterways.
