

ACES Greening the Holiday's Fair December 2008

Middle School students, their parents and community members, attended ACES "Greening the Holiday's Fair" held at Gold's Gym in Oakwood Plaza.

Each Middle School science class designed and created a unique booth with an emphasis on going green. Booths included organic cider, organic pastries, recycled menorahs and eco-friendly gift wrap ideas and other environmentally friendly ways to enjoy the holiday season.

Students and the community were abuzz with students focus on ways to "give the gift of green" this holiday.

Ms. Baker, Ms. Cohen and Ms. Lendick worked hard to make it a spectacular event for ACES students and families.
